Sunrise Consulting Group Inc. Signs Letter of Intent to Purchase Controlling Interest in Chinese Solar Company

NEWPORT BEACH, Calif.--([BUSINESS WIRE](#))--Sunrise Consulting Group Inc. (Pink Sheets: SNRS) has signed a letter of intent to purchase up to 60% of Sunrise Solartech Co., Ltd. www.srsolartech.com. Sunrise Solartech was founded in March 2006 in Jiansu Province, China as a privately owned enterprise that specializes in designing, developing, manufacturing and marketing solar energy products. Sunrise Solartech is one of China's largest manufacturers of solar PV (Photovoltaic) products, including solar energy appliances, on-grid & off-grid solar power generating systems, and solar modules, of which it boasts an annual capacity of 40MW. Sunrise Solartech has established strong strategic business in the European Market in many major European Countries and has built a worldwide network for PV (Photovoltaic) production and raw material purchases. In its most recent internal reports (September 2008), Sunrise Solartech projects a net profit of US \$2 million in 2008, US \$5 million est. in 2009, and US \$10 million est. in 2010. As a result of this acquisition, Sunrise Consulting Group expects to penetrate heavily into the North & South American markets and marketing of the Solar Modules.

ABOUT SUNRISE CONSULTING GROUP, INC.

Sunrise Consulting Group's mission is to become a premier investment banking and financial group for companies in Asia and the Pacific Rim, bringing value to small and medium sized companies and assisting them in becoming listed on the USA Exchanges. The company's major focal point is mainland China and additional target areas include Hong Kong, Laos, Vietnam, Malaysia, Australia and other Pacific Rim & Southeast Asian countries. Recent growth in these countries has been in the high double digits, and Sunrise Consulting intends to capitalize on this trend by building upon and adding to its current holdings, increasing sales revenues through acquisitions, and continually expanding its portfolio into related areas.
